

2019 Annual Teachers & Administrators Conference

October 30- November 3, 2019

"Veni, Vidi, Didici"

I came, I saw, I learned

The 2019 MAIS conference program is designed for professional learning through expert presenters to empower teachers and staff and to stimulate deeper exploration and growth.

Workshops are designed with the most current research, trends, practices, and strategies to implement them in the classroom and in the school.

Workshops provide interactive learning strategies and methods, with specific scenarios for teachers to apply them in the classroom.

Combine the cohort-style with job embedded professional learning; with new and continuing Cohorts in Mathematics, Next Generation Science Standards and Literacy.
